Is there anything more awe-inspiring than views all around snowy mountains and more cozy than a luxe lodge in the snow? We think not. But with so many ski resorts out there, where should you plan your next vacation? Here we give you 18 of the best ski resorts in the world.

### Shore Lodge in McCall, Idaho

There's no greater feeling as a skier than to have the mountain to yourself, and at [\*\*Shore Lodge\*\*](#) in McCall, Idaho (once described as "one of the best hidden ski towns to visit" by *National Geographic*) you may just get that chance. The lakefront resort lies within the prized Salmon River Mountains, and is a mountain retreat in a region that gets more than 200 inches of snow per year.

The resort offers a shuttle to and from [\*\*Brundage Mountain\*\*](#) for both downhill and backcountry skiing, but also snowmobiling to hot springs, snowshoeing, sledding and more. If you don't want to trek for your hot springs experience, there's a [\*\*private hot spring\*\*](#) on property in addition to two heated saltwater immersion pools.
